IMPACT STATEMENT

The Boys and Girls Club of Delaware is a positive place to build better citizens, one youth at a time.

OUR MISSION

To enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens.

CORE BELIEFS AND YOUTH DEVELOPMENT STRATEGY

Boys & Girls Clubs Provide: a safe place to learn and grow, ongoing relationships with caring adult professionals, life enhancing programs, character development experiences and hope and opportunity. The philosophy underlying Boys & Girls Club programming is the Youth Development Strategy. This strategy defines how youth development professionals and volunteers interact with young people. All programs and activities are designed to maximize opportunities for young people to acquire four basic "senses" which help them build self-esteem and grow into responsible and caring citizens.

These four senses are:

- A sense of competence: The feeling there is something boys and girls can do and do well.
- A sense of usefulness: The opportunity to do something of value for other people.
- A sense of belonging: The setting where an individual knows he/she has a place and where he/she fits in and is accepted.
- A sense of power and influence: A chance to be heard and to influence decisions.

When this strategy is fully implemented, the self-esteem of boys and girls is enhanced and an environment is created which helps young people achieve their fullest potential.

PRIMARY CAREGIVER & CONTINUITY OF CARE

Each child is assigned a primary caregiver that promotes a caring relationships that help children thrive. A primary caregiver ensures consistency of relationships, environment and communication between the staff and families. The child develops trust as his or her primary caregiver learns to respond appropriately to her unique temperament, needs and interests. This holistic relationship provides the security and trust that enables the child to explore and flourish in group care. Stability is important for healthy emotional development, which provides the underpinnings for all other areas of development.

DELACARE REQUIREMENTS

Boys and Girls Clubs of Delaware are licensed through the Office of Child Care Licensing to operate our child care programs. Parents are encouraged to review the Delacare Requirements for Day Care Centers. A copy is available at the front desk or on the web at

RELEASE OF CHILDREN

Your child will only be released to people that have been identified on the membership application and who have appropriate picture identification. It is your responsibility to notify the Club of any additions or other changes to the list of those who have your permission to take your child(ren). Please understand that for the safety of the young people we serve, Boys & Girls Club try strictly adhere to this policy. Anyone approved to pick up your child should be listed on your Emergency Information Form. There needs to be someone other than parents and the person who normally pick up the child listed as an emergency contact. This is a state requirement; we will not accept any child into the program without an additional person other than parents listed as an emergency contact. The emergency contact is not authorized to pick up the child unless specified on the form. The Club needs to be notified when someone else will be picking up your child. If authorization to pick up your child is done over the phone, you will be asked to verify certain information. Even if it is an emergency, the Club needs your permission to release your child to someone other than you. Written documentation naming the person(s) authorized by the parent/guardian for the release of the child(ren) is required for dismissals. An adult 18 or older must sign the member out.

Club staff members will assume that both parents have the right to pick up their child(ren), unless a court order stating otherwise is on file. Without a court order, the Club staff members cannot refuse a parent. If the Club has a court order and a non-custodial parent tries to pick up the child, the Club will call the custodial parent. If the non-custodial parent leaves with the child, the Club will immediately call the police and report the situation. The Club will not place the other children at risk in a confrontation with the non-custodial parent. Any changes to a court order must be done in writing, with the Director.

It is very important to Boys and Girls Clubs of DE that your child arrives home safely. Therefore, if the person who arrives to pick up your child appears intoxicated or otherwise incapable of bringing your child home safely the Site Director will call the other parent or the emergency contact. If the parent refuses to agree not to transport the club staff will call the police and report the parent as intoxicated.

TERMINATION POLICY

If you decide to withdraw your child from the Club we require written notice of termination two weeks in advance.

PERSONAL BELONGINGS

Children are required to leave toys, food, gum, pets, personal electronic devices – iPads, iPods, Electronic Readers, Cell Phones and money at home. The learning materials at all centers are shared by all of the children as part of the learning experience. Transportation to and from field trips is provided, with written permission, by Sutton Bus Company.

INCLUSION POLICY

The Boys and Girls Clubs of Delaware embrace an inclusion approach that provides opportunities for all children to actively participate in all aspects of the program. Parents are encouraged to share a copy of their child's I.E. P with us so that we can better serve her/him. This information will be kept confidential but will help the staff in determining the most effective way of working with your child. Please make an appointment with the Director and discuss how we can incorporate it in her/his activities.

The program will make reasonable accommodations in order to implement a child's Individual Education Plan (IEP) or Individual Family Service Plan (IFSP). Staff will have knowledge and training in inclusion best practices. The goal is to create a learning environment in which all children are valued and respected.

DUAL LANGUAGE LEARNERS

We provide ongoing professional development to staff so they are able to support the growth and development of children and families who speak languages other than English. We actively recruit members of the community who are bi-lingual and bi-cultural to work and or volunteer in the program. The staff at the site will implement activities that reflect the culture of the children in the program.

DAILY ACTIVITIES FOR CHILDREN

We guarantee our trained and experienced staff provides a loving, warm, nurturing environment. Quality learning experiences for children are enhanced by a well-planned curriculum. Daily schedules and lesson plans are used to provide activities, projects and themes that are appropriate for the age and development of the children in their care. This primary caregiver works in a team with other caregivers to provide for all of the children, however s/he tunes in to his/her primary children creating a special bond with these children and their families. S/he is responsible for most of the child's daily care needs, for monitoring and supporting the child's development and for communicating with the family

TRANSITION POLICY

We recognize that transitions can be stressful for both child and parent. We encourage parents to visit with their children as often as their schedule will allow. Pre-enrollment tours and meetings with staff are also recommended to new families. An Open House will be held twice annually at which parents will be given information about the programs being offered and your child's progress. School Age Club members will be assigned a student ambassador who will help introduce them to the daily routines.

A child will be transitioned from group to group following a birthday or beginning of the new program year. Staff will supervise and monitor these transitions by allowing visits to the new classroom each day for up to three days prior to move. The first day the child will participate with new group for one hour; the second day, the child will participate with new group for 2 hours and a meal period; the third day, the child will participate with the new group for the entire program day. On the Monday following the transition period, the child will report to his or her new group.

Transitions to other areas within program i.e. bathrooms, playgrounds, snack area, scanning in, will be supervised by staff. Children are expected to always adhere to code of conduct when moving from area to area and to notify staff immediately if there are any concerns.

Children ages 13 – 19 who are no longer enrolled in child care can transition into our teen program*. They can participate in our National programs such as Keystone Club, SMART Moves and Triple Play along with Pegasus Artworks, Tutoring, Sports and Recreation.

CHILD ASSESSMENT POLICY

Pre-school:

Currently we are using **the Ages & Stages Questionnaire (ASQ)** screening system to help keep track of your child's development. This screening tool is safe, age appropriate and culturally sensitive. A questionnaire will be provided every 2, 4 or 6 month period. Parent/guardians will be asked questions about what your child can or cannot do. If following the questionnaire there are no concerns we will provide activities to encourage your child's continued development. If there are some concerns we will follow up with a referral for a more in depth assessment.

Teaching Strategies Gold is an ongoing observational assessment system. Children are observed during their regular daily activities throughout the year. It gives a broader picture of your child's development. The information gathered will help develop classroom curriculum and help your child stay challenged and engaged.

School Age:

Your child is growing and learning every day at Boys & Girls Clubs of Delaware. We know you would like to know more about how your child is developing talents, interest and skills during out of school time. Boys & Girls Club of Delaware uses a **Portfolio based Informal Assessment**. It includes a developmental checklist as a screening tool. A portfolio is a collection of items that reveal different aspects of an individual child's growth and development over time. They include student work samples,

staff observations, pictures and parent feedback. Parents and children can select items for the portfolio. No information in your child's file will be shared without written permission from parent/guardian. All Assessments will be used to inform program planning and curriculum.

COMMUNITY NOTIFICATION OF SEX OFFENDERS

As required by law, information regarding sex offenders in the local area is available to parents. The Community Notification binder can be found at the front desk.

HEALTH EXCLUSION

Upon arrival, each child will be observed by a staff member trained in recognizing common signs of communicable disease, physical injury, or other evidences of ill health. The observations will be documented.

If your child has symptoms of any illness specified below, he/ she may not be admitted or allowed to remain in the Club. Written documentation from a licensed physician stating that your child does not pose serious health risk to other children will be required. The symptoms of illness for possible exclusion shall include, but are not limited to the following:

unspecified illness	infestation	lethargy
Scabies	irritability	Pink eye
uncontrolled cough	Mouth sores	Chicken pox
Diarrhea	Impetigo	Fever of 100 or higher
head lice	persistent crying	
excessive runny nose	Unexplained rash	
vomiting	Strep throat	

If your child develops any of these symptoms during the day, you will be notified as soon as possible to come get your child. If you cannot be reached at work, we will call your home and cell phones, and then the phone number for the emergency contact on your child's emergency card. Your child must be picked up within one hour. While awaiting your arrival, your child will be separated from the rest the group, in an area that is supervised and the child's individual needs for rest, comfort, food, drink, and activity are met.

COMMUNICABLE DISEASES

A written documentation from the child's licensed physician stating that the child has been evaluated and presents no risk to the child or others must be received by the Club before any child with communicable disease is allowed to attend the Club. Written notice of an outbreak of a communicable disease will be given out.

CHRONIC HEALTH CONDITIONS:

The Director will inform all staff of the health needs of individual children and make certain the staff respects the confidentiality of the children's health needs. Training will be provided to insure the staff is knowledgeable in special health needs.

Children afflicted with asthma/allergies shall have necessary medication (inhalers, prescription tablets, etc.) on site during program hours. Medication will only be administered to a child by certified staff. All prescription medications must be in its original container, properly labeled with the name of the child, name of the medication, dosage information, medication strength and directions for administering each medication. In the absence of a physician's order, parents may come to the site and administer medication to their child.

The Director shall keep a record of the administration of medication to children which includes medication as well as any adverse effect that is observed. While a child is receiving medication the staff will note in the records of the child and advise the parent/guardian of the occurrence of any health problems such as nosebleeds, skin rash, nausea, diarrhea, high fever or labored breathing.

EMERGENCIES

Most of the Club staff is first aid and CPR certified. The staff will report injuries on a minor injury report form which will be given to parent/guardian at the end of the day. All head and eye injuries no matter how minor will be reported immediately to the parent/guardian. Any injury that causes bleeding or swelling will also be reported as soon as possible. In the event of a more serious injury or illness, the staff will make every attempt to reach that parent/guardian and the child will be transported to the local hospital. Please be sure to list all allergies and health problems on your child/s membership application as well as making staff verbally aware.

STANDARD PRECAUTIONS

All employees have been trained to employ standard precautions to protect themselves and others from exposure to bodily fluids in accordance to OSHA.

HEALTH & SAFETY PRACTICES

Protecting children from injury is a primary goal of the program. Close attention is paid to providing safe physical surroundings, preventing the spread of infection and encouraging good health and safety practices in both children and staff. Children and staff must follow the required hand washing procedure.

Simple hand washing steps:

1. Turn on warm water.
2. Wet hands with water.
3. Apply liquid soap.
4. Wash hands, rubbing hands out of running water at least 10 seconds. Rub top and inside of hands, under nails and between fingers.
5. Rinse hands at least 10 seconds under running water.
6. Dry hands using a clean, disposable paper towel or an air dry blower.
7. Turn off water using the paper towel.
8. Throw paper towel away into a plastic lined, hands-free, covered trash receptacle.

The tables and equipment are sanitized with a solution of bleach and water. Wipes and hand sanitizers (antiseptic waterless washes) are not a substitute for handwashing.

HEALTH & SAFETY CURRICULUM

We offer a number of health and safety programs throughout the year. SMART Moves is designed to prevent drug and alcohol use and delay the onset of sexual activity.

- Act SMART was implemented as part of an extensive HIV prevention campaign to provide health education and risk education activities in an out-of-school setting.
- Smoke Screammers is a tobacco prevention program.
- Nemours 5-2-1-Almost None program teaches club members about healthy eating and lifestyles
- Triple Play a comprehensive health and wellness initiative, that strives to improve the overall health of members, by increasing their daily physical activity, teaching them good nutrition and helping them develop healthy relationships.
- Safety habits such as crossing the street, wearing a safety belt, fire safety are also integrated in the program.

PHYSICAL ENVIRONMENT & SAFETY

Daily health and safety checks are conducted at opening, closing and throughout the day of the facility. Employees are required to make sure all areas inside and outside the facility are clean and free from hazards. Staff shall employ standard precautions for protection from bodily fluids.

FOOD & NUTRITION

The Boys and Girls Clubs of Delaware have adopted the National After School Associations Healthy Eating Standards. The children involved in the Club's child care program will receive a nutritious lunch and or snack each day. All meals and snacks are provided in accordance to the current USDA/ Child and Adult Food Program. The Club staff considers our relationship with the parents/guardians a partnership. In order for us to keep child care fees low, we ask for your cooperation in packing a nutritional lunch for your child on half days and "no school" days (Extended Care). This will ensure that your child has a productive day in the program. Some guidelines are listed here to assist you in selecting items for your child's lunch.

1. **A lunch for children shall have one (1) item from each of the food groups below:**
 - a. Dairy products -- milk, milk products, cheese.
 - b. Protein -- meat, poultry, eggs cheese, peanut butter, dried beans, peas, nuts.
 - c. Grain -- whole grain and enriched products such as breads, cereals, pastas, crackers, and rice.
 - d. (2) servings of the fruits/vegetables group (raw or cooked any kind)
2. When your child arrives at the Club (or when you sign your child in), you or your child **must notify the person in charge if your child's lunch requires refrigeration.** This is an important safety procedure.
3. Lunches must be labeled at home with the child's first and last names.
4. The professional staff at Boys & Girls Clubs of DE believes that your child will feel better, and have a happier and more positive day in the Club by consuming only nutritional foods and drinks. Some examples of what to stay away from, especially in the Club:
 - Candy, including chocolate
 - Gum
 - Soda of any kind
 - High sugar foods and drinks
 - Artificially colored beverages
5. If a parent/guardian wants a modification to the required meal pattern due to preferences or religious beliefs, they must do so in writing.

Because there are so many children that attend the Club everyday, **we can not heat or cook your child's meal.** Parents are responsible for providing any needed plates, utensils, cups, napkins, etc. as needed. Please make sure that you put your child's name on his/her lunch bag/box and any containers. If you send your child with juice, it must be 100% juice to count as a food group. Capri Sun, Kool-Aid, sports drinks and soda do not count.

A nutritious snack will be provided by the Boys & Girls Club. Snack time will last 20-30 minutes and will include 2 of the following: milk/dairy, protein, fruits and vegetables, grain. If your child does not like the snack we provide, the parent has to provide an alternative.

CLOTHING

Children should come dressed for action. We recommend washable, comfortable play clothes, which the child can manage as much as possible. Sneakers or other soft-soled shoes are the safest. Clogs, sandals, jellies or hard-heeled boots are not allowed. Considering that we do go outdoors daily (weather is permitting) we ask that you please dress your child appropriately for the weather. Clothes with inappropriate graphics or writing may not be worn. Members must wear Boys and Girls Club T-shirts on all field trips.

HOMEWORK POLICY

We strongly believe it is a shared responsibility between the Boys & Girls Club of Delaware, the members and their parent to help assist in completing the homework. We will do our best to encourage each member to work diligently during the homework help time and provide as much assistance as possible. Although it our greatest desire that all members will respond favorably to this opportunity, we cannot force a member to make the choice to complete his/her homework. We believe the Parent is the greatest teacher and their support at home will afford their child an even greater chance for success. We look forward to serving with you to help foster your child's academic achievement. We cannot assure that each member will complete all of their homework during the allotted time. We will provide learning materials and access to the computer to assist in the completion of homework as part of our commitment.

POSITIVE BEHAVIOR MANAGEMENT

Staff shall use only positive age-appropriate methods of discipline and guidance of children which encourage self control, self discipline, self esteem and cooperation. When a discipline issue presents itself, we initiate the following: redirection, verbal warning, time out and disciplinary write-ups. When time out and write-ups are used, the reason that the member is in trouble will be discussed. During this process the child is encouraged to understand that his/her behavior is important for a successful, safe and fun program. When these tactics are not successful, a staff person will discuss the issue with the child's legal guardian/parent to help create a solution. **Inappropriate behaviors such as hitting, fighting, stealing, vandalism, disrespect to staff or other members, not following directions or leaving the facility without permission will not be tolerated and may result in automatic suspension.** When a child's behavior risks safety to themselves or others, a parent/guardian will be called and asked to pick up their child immediately. This behavior can automatically result in removal from the program and will be handled on a case-by-case basis.

- If a child is written up, he/she may lose fieldtrip privileges.
- 3 times-outs in one week may result in a 1 day suspension
- If a child is suspended a second time, it may result in a 3 day suspension
- If a child is suspended a third time, it may result in a 5 day suspension
- If a child's behavior deems a fourth suspension it may result in removal from the program.

***At no time will the staff members use corporal punishment as a means of discipline.**

Staff members will model positive behavior management techniques and respectful communication interactions when relating to other staff members and parent(s)/guardian(s) while at the center.

We expect to receive respectful behavior from both the parents and children in the program. If this does not happen, enrollment will be terminated.

CHILD ABUSE & NEGLECT

As a licensed child care facility all staff are required by law to document and report any suspicion of abuse or neglect of a member. Any staff person alleged to have perpetrated an incident of child abuse or neglect shall not have any contact with any children until the investigation of the incident has been completed.

OUTDOOR PLAY

We are committed to promoting healthy habits. Children will go outside daily for exercise if weather is permitting. Weather Permitting Conditions are between 25 and 90 degrees (including wind chill and heat index) EXCEPT during active precipitation or weather advisories. ANNUAL NEEDS ASSESMENT

Boys and Girls Club of America's Formula for Impact is a research-based theory of change that describes how individual Clubs and the Movement as a whole will increase our impact - exponentially - on the lives of young people of America, particularly those most in need. Each element of our Formula for Impact incorporates research into the ways that young people grow and thrive, as well as best practices and traditions of highly effective Clubs. As part of our commitment to quality we conduct annual youth and parent/guardian surveys to inform program planning and measure impact.

MANMADE & NATURAL DISASTER PLAN

POWER FAILURE/NATURAL DISASTERS (Earthquake, tornado, hurricane, blizzard)

Children will remain in the building whenever possible. If the Director determines that the building must be evacuated, parents/guardians or emergency contacts will be contacted to pick up children. A Director will stay with the children until a parent/guardian or emergency contact arrives at the site. If it is not possible to remain at the site a note will be posted on the front door explaining the whereabouts of the children and staff.

FIRE EVACUATION

Fire drills will be administered monthly. As in all fire drills children will not be permitted to collect coats, toys, or any other personal items. As part of their orientation to the Club the children will be taught to stop anything they are doing when they hear the fire alarm and meet their teacher immediately at a designated place. Exits, hallways and other evacuation routes will be clear at all times to permit a prompt and safe exit from the building.

Regardless of the apparent size of the fire or the amount of smoke, the staff will promptly lead the children out of the building using the closest and safest exit. Staff and children will not stop to take clothing, toys, etc.

The Director will be the last person to leave the building, after checking the bathrooms, hallways, etc.

After the staff and children are assembled at the designated meeting area, the Director will check attendance records and account for all children.

When and if the Fire Department determines it is safe to re-enter the building, staff will lead the children back into the building.

WEAPONS

Children possessing a dangerous weapon will not be permitted in the center. A dangerous weapon is a gun, knife, razor, karate stick, metal knuckle, or any other object that by the manner it is used or intended to be used is capable of inflicting bodily harm. In cases that clearly involve a gun or which involve any other weapon used in a threatening manner the police will be called and the child will be subjected to immediate disciplinary procedures including suspension or expulsion from the club.

BOMB THREAT

In the event a staff member receives a bomb threat the Director will:

Attempt to get the maximum information from the caller. Call the police and the Boys & Girls Clubs of DE administrative offices.

UNDER THE FOLLOWING CIRCUMSTANCES THE BUILDING WILL BE EVACUATED:

- An adult made the call.
- The caller states the general location and/or the time of explosion.
- The Director decides the nature of the call and if it warrants evacuation.
